Jenkins' Annihilator.
The Great Southern Remedy for
RHEUMATISM, GOUT & NEURALGIA.
Those terrible enemies of human happi-
ness, Rheum, Gout and Neuralgia,
heretofore seemingly unconquerable, have
indeed found their master in Jenkins' An-
nihilator. We have the testimony of men
of the highest standing in Louisiana and
other States, that after suffering indescrib-
able pain for years, from which they
sought relief in vain by visiting the Hot
and Warm springs of Arkansas and Vir-
ginia, and by using dozens of remedies
more or less highly praised, when, in fact,
they had almost died, they have found
relief from pain by the use of the An-
nihilator, and by continuing its use for a short
time, have been perfectly cured. The An-
nihilator is a preparation purely vegetable,
agreeable to the taste, and may be taken
without fear of any injurious results by
the delicate as well as the robust in con-
stitution.

Golden-Footed Sheep.
A question which should come
home to every stock raiser is the
fact that we have to pay \$20,000,
000 annually for foreign wool for
manufacturing purposes. This
should be raised at home. We
should have at least one more head
of sheep for every dollar now paid
for foreign wool. Every portion of
the United States is adapted to the
growth of wool. We have hereto-
fore called especial attention to the
capabilities of the hill country of
the South for the production of
sheep, wool and mutton. It may
be to many of our Southern States
what beef and pork are to the West
—a mine of wealth, and at the same
time the means of improving and
enriching the soil. In the East many
sections of country, heretofore noted
for wool, are now finding more profit
in other agricultural directions. In
the West meat products and the
dairy are prominent industries. Both
these sections of the country are
however large sheep producers. The
South may well wheel into line
and grasp this source of wealth.
But to do this successfully vagrant
and other sheep-killing dogs must
be curtailed. Texas, Colorado, Cal-
ifornia, and some of the territories
West are making rapid strides in
the production of wool, and already
their grade fleeces, the product of
long wooded ranges, as Cotswold and
Leicester and the native merino
and other breeds, are eagerly sought
for by eastern buyers for delicate
and other combing wools. The half
and three-quarters blood, from
Cotswold and Leicester upon meri-
nos, will bring from 4 to 7 cents
per pound more than that of pure
merinos, and this for the reason
that combing wools are, and for
years have been, in demand. In
relation to this matter we may state
that at one of the New York State
fairs, the produce of the first cross
of Cotswold on merino gave a fleece
five inches long, nearly as fine as
merino, and as easily combed as
Cotswold. There wools are most
valuable for delaines and other
feminine fabrics. There is money
in the extension of the wool inter-
est. One thing necessary is for the
grower to post himself upon the
necessities of the case, and that is
easily done. All that is required
is to study the animals on their
merits, in connection with what
they are intended for, to read under-
standingly these journals which
give the best digested matter on
the subject, and to use tact in breed-
ing such as will be possessed by in-
telligent observation.

Jefferson Davis on Northern Aid.
New York Herald.
The following is an extract from
a letter written by Jefferson Davis
from his home at Beauvoir, not far
from New Orleans, to a friend in
New York a few days before the
death of his son. It not only
shows the hopefulness of the man
in regard to the checking of the
fever, but proves that there is a less
bitter feeling in the South toward
the North today than there was a
year ago:
"The time is at hand when frost
may be expected at Memphis, and
the effect it produces has usually
been felt for several degrees of lat-
tude south of the place where it
occurred. We are here surrounded
by fever and the circle steadily
narrowed, but my residence is so
isolated that we may fairly hope
not to be invaded by the infection.
The disease, however, has this year
some characteristics hitherto un-
known, and the suffering has been
and is more general and severe
than of any previous epidemic.
The noble generosity of the North-
ern people in this day of our ex-
treme affliction has been felt with
deep gratitude and has done more
for the fraternization of which
many idly prate than would many
volumes of rhetorical assurance."

Horrible Incidents.
Memphis Appeal.
Another sickening case of desec-
tion has come to light. A man named
Towmsly lost a child by fever, im-
mediately after the funeral of
which, his wife and little daughter,
Florence, 12 years of age, were ta-
ken. In despair he told the neigh-
bors he was going to make way
with himself, and has not since
been heard of. Since he thus basely
deserted his wife, she died and has
been buried, and his Florence and
his youngest child, a boy, are wards
in the infirmary. If he isn't dead,
somebody ought to kill him.

Another of the horrible inci-
dents which startle people at home
as well as abroad, and leave one
dazed with amazement that human
beings can be so cowardly, occurred
on one of the streets of the origi-
nally infected district. A man and
his wife and one child, occupy-
ing a nice home, saw their little
girl taken down with the fever,
whereupon the wife, full of the he-
roism of which her sex has made
so many displays during the epi-
demic, advised the husband to
leave, which he did without delay,
and from a house only across
the street saw the bodies of his
child and faithful wife carried by
strangers for interment in Elm-
wood Cemetery. Donovan hardly
matches that.

Expressed Their Delight.
Thousands of ladies of refine-
ment have expressed their delight
at finding such delicate, fresh,
flowery fragrance in Dr. Price's
Unique Perfumes, Pet Rose, Alistia
Bouquet, Evening Violet and his
other odors. Ladies and gentlemen
of taste appreciate the sweetness of
Dr. Price's perfumes.
